Text Mining and Analytics

Pattern Discovery in Data Mining

Cluster Analysis in Data Mining

Data Mining Project

Dec 23, 2024

**Kassym Orakbay**

has successfully completed the online, non-credit Specialization

## Data Mining

The Data Mining Specialization teaches data mining techniques for both structured data which conform to a clearly defined schema, and unstructured data which exist in the form of natural language text. Specific course topics include pattern discovery, clustering, text retrieval, text mining and analytics, and data visualization. The Capstone project task is to solve real-world data mining challenges using a restaurant review data set from Yelp.

John C. Hart, Professor  
of Computer Science,  
ChengXiang Zhai,  
Professor and Willett  
Faculty Scholar, Jiawei  
Han, Abel Bliss  
Professor

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
